Aeris Oyo Product information

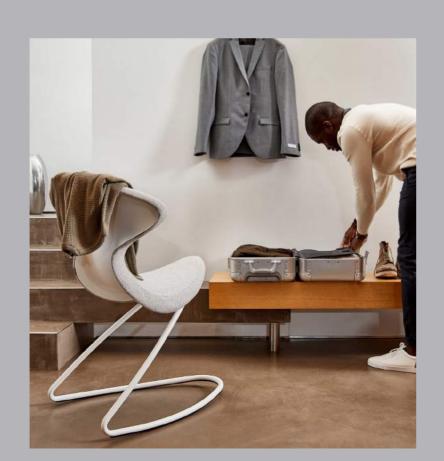

Product information

A chair and its user rarely suit each other this well.

The Aeris Oyo is a unique combination of saddle chair, rocking chair and cantilever chair that will make any design lover's heart beat faster. The curved shell shape not only looks breathtakingly good, but also invites you to sit in different positions. Whether forwards, sideways or even backwards. With the Aeris Oyo, you are always sitting in the right position.

Aeris Oyo Product information

The skid frame of the Aeris Oyo enables a rocking movement that is not only fun, but also keeps the mind stimulated and alert. Thanks to its special shape, the saddle seat supports an upright posture all by itself.

Product description

The Aeris Oyo is a designer rocking chair that allows you to sit in 3 different positions - sideways, forwards or backwards. The sled base provides a rocking movement that relaxes and keeps you awake. The special shape of the saddle seat supports an upright posture.

The Aeris Oyo has a five centimetre thick foam cushion under the cover, which provides additional comfort. The universal runners of the rocking chair are suitable for both smooth floors and carpets.

o certificate

Post-Consumer-Polyester Bezug

Always remove stains as quickly as possible before they have penetrated the fibres.

Optimal treatment is with lukewarm water and pH-neutral soap foam. Pre-treat oil and grease stains with ethyl alcohol (spirit).

After each cleaning, treat with clean water. Never use cleaningagents containing.

The seat may only be treated when damp, not wet, otherwise the upholstery under the fabric may be damaged under the fabric can be damaged. Therefore, please use only a little water and apply use only small quantities of the cleaning agent.

To avoid edges, please always treat from the edge to the centre.

Attention! Do not place the Oyo on the edges of the seat shell when cleaning, otherwise the cover may be damaged. cleaning petrol/acetone etc. can dissolve foam when soaked. Take care with naked flames due to fire hazard. Inhalation is dangerous.

Cleaning with petrol/acetone etc. can dissolve foam if over applied.Do not saturate. Use a little amount of acetone at a time – Large quantities can cause irreparable damage to the foam. Be careful Acetone is flammable, so keep it away from live flames. Inhalation is dangerous so use in a well ventilated area.

Felt cover

As a genuine natural product made from 90% wool and with a stain-resistant structure, the cover should ideally be vacuumed regularly using a soft vacuum nozzle only.

Cleaning the frame

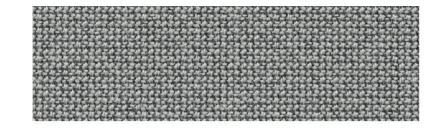

Please only clean the frame with a dry microfibre cloth.

If necessary, wipe with warm water, pH-neutral soap and a lint-free cloth.

Fabric sample overview

Gabriel Cura features

The Cura fabric cover is characterized by a warm, casual aesthetic that is complemented by a lively melange effect and a soft, voluminous texture.

But this material is not only visually appealing - its high stretchability enables flexible use, making it perfect for office and lounge furniture. But what makes this material special is its sustainability. As much as 98% of the material is made from recycled post-consumer polyester, which makes a significant contribution to reducing waste. In addition, the entire material is 100% recyclable and therefore contributes to a closed-loop economy.

But this material also scores highly in terms of ecological standards. The EU Ecolabel shows that it meets strict environmental criteria and is therefore an environmentally friendly choice. It also fulfills meets the requirements of STANDARD 100 by OEKO-TEX®, which means that it has been tested for possible harmful substances and is considered safe for human use.

Cura-Specifications

Design no.	2480/2544
Composition	98% post-consumer recycled polyester / 2% polyester
Weight	g/lm 420 oz/lin.yd 55
Width	cm 140 inches 55
Abrasion	rubs Martindale (EN ISO 12947-2) 100.000 Double Rubs Wyzenbeek (ASTM D4157-07) (heavy duty upholstery) 100.000 ASTM D4157-07 Wyz-abrasion (heavy duty) 100k pass
	Abrasion test results exceeding ACT Performance Gui- delines are not an indicator of product lifespan
Pilling	scale 1–5, max. 5 – EN ISO 12945–2 4–5 ASTM D3511 Pilling pass
Light fastness	scale 1–8, max. 8 – EN ISO 105–BO2 5–8 AATCC 16 Light fastness pass
Rubbing fastness	scale 1–5, max. 5 – EN ISO 105x12 (dry/wet) 4–5/4–5 AATCC 8 oder 116 Dry/wet crocking pass
Care instructions	wash or dry cleaning P(W) Cura is made of polyester which is a material suited for environments with special requirements for cleaning.
Flammability	BS EN 1021 1&2 Cigarette and Match CA TB 117-2013 ASTM E 84 Class 1 Will also pass other flammability standards. Flame retardant performance is dependent upon the foam used. Contains no flame retardant chemicals.
