

swopper AIR

Love at first sit.

swopper AIR

The **swopper AIR** has high-tech cushioning and a climate-regulating cover for a completely new dimension of sitting comfort - as if on air.

In the cushioning of the **swopper AIR** we have intricately combined five functional layers. No other office chair has so much high-tech. And the effect is a perfect "sit": feather-light comfort with breathable, pressure-relieving, heat-regulated sitting.

Here is a look at what you feel.

The seat profile

1. Cover: breathable net structure (mesh material) made of 100% polyester, 70,000 Martindale rubs (high abrasion resistance)
2. Wadding
3. Soft foam
4. 3DEA spacer fabric (patented high-tech cushioning): 30 mm high, laser-cut. Optimum climate-control properties provided by natural heat and moisture regulation. Permanent compression elasticity, excellent recovery properties, completely recyclable, Made in Germany.
5. Integral foam
